

PLAIN ENDED PP SANITARY PIPE BENOR BLACK

Description

The pipes comply with the requirements of NBN EN 1451 for plastic piping systems made of polypropylene copolymer (PPC) for wastewater drainage inside buildings and bear the BENOR conformity mark.

The pipes are marked with the following information:

- EN 1451
- manufacturer's mark, production date and production site
- BENOR
- diameter and wall thickness
- material: PP

Advantages

- Suitable for indoor and outdoor drainage systems
- Extremely impact-resistant
- Resistant to high temperatures (100 °C)
- Chemically resistant
- UV-resistant
