

CAST IRON ROADWAY COVER D400 Ø900 H200

Description

Hinged road cover Ø700 with circular frame.

- Elastic joint with a width of 27 mm under the entire seating of the cover.
- Self-cleaning hinge.
- Anti-blocking safety device at 90°.
- Anti-slip surface.
- Factory-treated with water-based black paint in accordance with SB 250, version 4.1.
- Cover removable at 120°.

Advantages

- The design ensures high resistance for all types of traffic.
- The weight reduces vibrations transmitted to the structure.
- Reduced vibrations thanks to the high quality of the elastomer ring.
- Due to the position of the seal underneath the cover, it is protected during installation and maintenance works.
- Multiple lifting openings for easy handling.
- Smooth frame, ideal for installing paving stones against.
