

IT PLUS CONTROL INSPEC. BOX 600X600X600MM CUSTOM

Description

- The IT Plus Control Inspect is made of PE (polyethylene).
- The units are factory-fitted with the required openings and connections.

Advantages

- The variable inlets are equipped with spigot ends, allowing watertight connections to be made with PVC, PP or PE pipes and fittings (Ø110 to Ø500).
- The IT Plus Vivo Control is stackable and can be raised using PVC pipes Ø400 or Ø500.

Application

- Can be used as an inspection, sedimentation, control and/or connection chamber in combination with our infiltration or buffer basins.
- Compatible with the IT Plus Control, the IT Plus Variobox and the IT Plus COLUMNBOX.
