

PLAIN ENDED PVC PIPE BENOR REDDISH BROWN

Description

PVC sewer pipe, BENOR certified in accordance with NBN EN 1401. Supplied in RAL 8023 reddish-brown, suitable for waste water drainage (DWA).

The pipes are marked with the following information:

- Certification, BENOR mark
- Ring stiffness
- Production date
- Recycling guarantee
- Take-back guarantee
- Manufacturer's mark
- Diameter and wall thickness
- Application code: U or UD

PLAIN ENDED PVC PIPE BENOR REDDISH BROWN

Application

PVC is resistant to all substances commonly found in domestic wastewater and is unaffected by aggressive soil environments such as peat acids, heavy clay soils, sandy soils with a humus-rich top layer, and similar conditions.

Substances such as acetone or chloroform, to which plastics are less resistant, must not be discharged into sewers for domestic or industrial wastewater.

Practical operating temperature range:

- Continuous: 60 °C
- Short-term: 90 °C

Characteristics

Characteristic	Value	Characteristic	Value
Raw material	PVC	Colour	Reddish brown
Pipe wall	Solid wall	Certificate	BENOR
Connection	Plain	Certificate norm	EN 1401-1
