

Description

Efficient PP rainwater filter with removable filter element. The Devafilter is installed in line with the inlet and overflow, in the manhole above the rainwater tank. Rainwater enters via the inlet and passes through the stainless steel mesh of the filter into the tank. Debris retained in the filter is flushed away during heavy rainfall or when the rainwater tank overflows.

Advantages

- No fall required.
- Easy maintenance.
- Robust stainless steel sieve with a mesh size of 1 mm.
- Filter and rainwater tank under the same cover.

Characteristics

Characteristic	Value	Characteristic	Value
Article code	32119	B (mm)	300
Commercial Code	DEVA125	C (mm)	400
Raw material	Inox PP	Mesh size (mm)	1 mm
Height (mm)	195	Diameter Ø (mm)	125
A (mm)	480	Weight (kg)	2,13
