

SOCKETED PVC PIPE NOT CERTIFIED REDDISH BROWN

Description

ATTENTION: Manufacturer's standard, NOT BENOR certified
PVC sewer pipe, non-certified, supplied in RAL 8023 reddish-brown.

Application

PVC is resistant to all substances commonly found in domestic wastewater and is unaffected by aggressive soil environments such as peat acids, heavy clay soils, sandy soils with a humus-rich top layer, and similar conditions.

Substances such as acetone or chloroform, to which plastics are less resistant, must not be discharged into sewers for domestic or industrial wastewater.

Characteristics

Characteristic	Value	Characteristic	Value
Raw material	PVC	Colour	Reddish brown
Pipe wall	Solid wall	Certificate	Uncertified
Connection	Socketed
