

Description

A composite manhole cover with an anti-slip surface. Marked with the load class, reference standard, manufacturer's name, and a quality mark issued by an internationally recognised institute.

- Equipped with special anchoring flaps for secure fixing during installation.

Advantages

- Durable and resistant, compliant with EN 124
- Kio covers weigh on average 70% less than cast iron covers
- Corrosion-resistant
- Noise-reducing
- Resistant to aggressive substances and flammable liquids
- Provides protection against magnetic and electrical fields

Characteristics

Characteristic	Value	Characteristic	Value
Article code	42423	Load class	D400
Commercial Code	KIO840D400	Outer diameter Ø (mm)	840
Raw material	Composiet	Clear opening diameter Ø (mm)	600
Shape	Round	Height (mm)	100
Certificate	Uncertified
