

GREASE TRAP 200L (HEIGHT=75CM)

Description

Grease-laden water from the kitchen, bathroom, laundry room, etc. flows into this tank. Due to the difference in density, an automatic separation takes place between the water and the fats. The fats rise to the surface and form a layer on top of the water. The outlet pipe is positioned just above the bottom of the tank, ensuring that no fats are discharged.

Advantages

- Easy and quick to install
- Wide range of applications
- Lightweight
- Excellent resistance to chemicals
- Easy maintenance

Characteristics

Characteristic	Value	Characteristic	Value
Article code	<u>4253</u>	Access diameter Ø (mm)	110
Commercial Code	OVT200	Diameter Ø (mm)	87
Raw material	PE	Height (mm)	750
Colour	Black	Weight (kg)	18
Volume (l)	200
