

DRAINIX 1200X600X150 WATER-PERM BASE

Description

Drainix® is a cast-on-site reinforced grass paver and represents the perfect combination of a classic plastic (lightweight) grass paver and a concrete (strength) grass paver. More information and installation guidelines can be found via this link.

Advantages

- Wear-resistant and strong: creates one large infiltrating concrete surface with reinforcement
- Can be cast on a slope
- Suitable for use as verge reinforcement
- User-friendly installation thanks to its low weight
- Can be filled with topsoil or gravel
- Also suitable for heavy traffic such as trucks and forklifts
- Requires 38% less concrete compared to a traditional concrete slab

Characteristics

Characteristic	Value	Characteristic	Value
Article code	43968	Length (mm)	1200
Commercial Code	GRASDRAINIX	Width (mm)	600
Raw material	PP	Height (mm)	150
Colour	Black	Concrete volume per m ²	0,0874m ³
UV resistant	Yes
