

EPDM POND COVER 1.04MM 6.10X30.5M

Description

Durable and flexible EPDM membrane, specially developed for (swimming) ponds and water reservoirs. Thanks to the wide rolls, fewer seams are required, allowing the membrane to be installed quickly and efficiently.

Advantages

- Excellent resistance to UV radiation and ozone
- Permanently elastic, even at temperatures down to -45 °C
- Elongation up to 300% to accommodate expansion and temperature fluctuations
- Free from plasticisers and flame retardants → long-term retention of material properties
- Quick and easy installation using primer and self-adhesive seam tape
- Maintenance-free and easy to repair if required
- Long service life of up to 50 years
- Ecologically inert material with no impact on water quality

Application

Suitable for ponds, swimming ponds, breeding tanks, fire-fighting ponds and water storage reservoirs.

EPDM POND COVER 1.04MM 6.10X30.5M**Characteristics**

Characteristic	Value	Characteristic	Value
Article code	65127	Width (m)	6,10
Commercial Code	PONDCOVER104610	Length (m)	30,50
Raw material	EPDM	Thickness (mm)	1,04
